1. It has been determined that the proposed storm box conversion, located at station 3+45.0 – 20.5' Lt. (Sheet 29 of the plans), is not practical. In lieu of that work, we will be installing a 5' x 5' Type S inlet (6' Deep). The new inlet information is as follows:

BOC Elev. - 1223.35  
36" RCP Inv. In (E) - 1218.13  
36" RCP Inv. Out (W) - 1217.83  
18" RCP Inv. In (N) - 1219.26  
18" RCP Inv. In (S) - 1218.30

The attached "Bid Proposal" sheet has been updated to reflect this change and must be utilized for your bid submittal. Items adjusted on the bid proposal include:

- Removed bid item to convert junction box to type S inlet.
- Removed one quantity of the core existing inlet.
- Added new bid item for 5' x 5' Type S Inlet w/ Lid (6' Deep)
