

**Memorandum #10-68**

**To:** Doug Russell, City Manager  
**From:** Bradley Moser, Civil Engineer  
**Subject:** Bid Award for Cedar Street Reconstruction & Water Main Replacement  
**Date:** April 19, 2010

Johnson Engineering prepared plans and the City has received bids for the Cedar Street Reconstruction and Water Main Replacement project. The work includes the removal of the existing pavement, replacement of miscellaneous curb and gutter, installation of new 6" PVC water main and the placement of aggregate base course. The new asphalt pavement for the street is planned to be installed by the City of Yankton Street Department. The bids received are listed below:

1. Feimer Construction, Yankton, SD	\$261,567.70
2. Northdale Construction Co., Inc., Albertville, MN	\$281,136.47
3. First Rate Excavate, Sioux Falls, SD	\$282,275.95
4. Slowey Construction, Yankton, SD	\$306,528.20

The low bidder meets the specifications and is \$56,231.55 lower than the Engineer's estimate of \$317,799.25 for the project. Feimer Construction has completed projects for the City and has been awarded the 8th Street and the Locust Street water main projects in 2010. They have experienced personnel that are capable of doing this type of construction work. Based on Feimer Construction's work history with the City of Yankton and a review of the bids submitted, Johnson Engineering supports the award of the contract to Feimer Construction.

City staff recommends that the bid be awarded to Feimer Construction in the amount of \$261,567.70.

Respectfully submitted,

*Bradley Moser*

Bradley Moser  
Civil Engineer

**Recommendation: It is recommended that the City Commission award the 2010 Cedar Street water main and street reconstruction contract to Feimer Construction in the amount of \$261,567.70, as explained in Memorandum #10-68.**

I concur with the recommendation.

I do not concur with the recommendation.

*Doug Russell*
